Membership of District No. 2

The best estimate of the membership of the Communist Party in District No. 2, which comprises New York State, was approximately 15,500 as of June 30, 1951.

Estimated membership in the New York Division was about 14,850 on the same date.

Verification of Membership

Confidential Informant T-18, of known reliability, reported that a Communist Party meeting was held in August, 1951 at the home of a Communist Party member in Brooklyn, New York, and that among those present was [redacted] a Kings County (Brooklyn) Communist Party official.

b6
b7c

[redacted] stated that in view of the hazardous position of the Communist Party, it was necessary to take precautions that the membership was trustworthy and loyal. Accordingly it was decided that a written verification be made of party leadership. This verification would be similar to the recent verification made orally. He also stated that this meeting was to be held in the strictest confidence, and was not to be mentioned to the rank and file party member.

A two page legal size questionnaire with some fifty or sixty questions mimeographed thereon was passed to the members present. The questionnaire was split into three parts: the first concerned party background, the second concerned military service, and the third related to personal life.

NY 100-26603

Under the first part questions were asked regarding the comrade's name, birth data, residence, nationality and economic background of parents, own economic background, employment, trade, wages, former employments, religion, education, mass organizations; when the comrade joined the Communist Party; who recruited the comrade; places where the comrade worked five years prior to entrance into the Communist Party; economic or political struggles before entering the party; and economic and political struggles since entering the party; previous political affiliations; other comrades who knew the writer before joining the party; what comrades know the writer longest; close friends and acquaintances of the comrade both in the party and outside the party; Communist Party schools attended; Communist Party positions held; whether the comrade has ever been a full time functionary; has he ever disagreed with the Communist Party; and how; does he know anyone who is "sour" on the party; has he associated with anyone who was expelled from the party or who is an enemy of the party, or who has caused factional disputes; has he any relatives employed by the city, state or federal government; has he ever been investigated.

Under part two questions were asked regarding military service, the branch of the service, the rank held; whether the comrade was ever arrested, even for a traffic violation; whether he had ever been out of the United States.

Under the final section questions were asked regarding military status; whether living with spouse; any children of the marriage; state of health; any serious illnesses; any psychiatric treatment; names and occupations of all brothers and sisters; indulgence in gambling, drinking or playing cards.

After the form was completed and handed in to [redacted] [redacted] separate pieces of paper were distributed to each person present. Each of the following questions were answered on separate pieces of paper. The first question was whether the comrade was suspicious of anyone in the party or anyone close to the party. If there were any suspicions, the member was

b6
b7c

RSG:mjt - 9

NY 100-26603

asked to write down the name of the person suspected and the reasons for such suspicion.

The second question was whether the party comrade had ever been investigated.

The next question was whether the party comrade had ever taken a civil service examination or ever held a civil service position.

The last question was whether the comrade had ever used narcotics.

MEMBERSHIP

(Bureau file 100-3-68)
(New York file 100-80638)

Membership of District No. 2 was estimated in the following manner:

Estimated membership in the Buffalo Division, as of June 30, 1951, was given as 364, according to Confidential Informants T-37, T-38, T-39 and T-40, of known reliability.

It was estimated, according to Confidential Informant T-41, of known reliability, that there were 276 members in the Albany Division as of June 30, 1951.

As previously reported, Confidential Informant T-15, of known reliability, made available on March 30, 1951 a document containing figures which were apparently membership statistics for all Communist Party districts. It is believed that these figures were entirely accurate and appear to have been compiled some time prior to March 30, 1951.

The National membership in this document totaled 37,761 with the membership of District No. 2 listed as 17,926. Thus, the membership of District No. 2 was 17,926, or 47.475% of the total National membership, whereas membership of the districts outside District No. 2 was 19,835, or 52.525% of the total National membership.

Membership statistics contained in the quarterly reports of all offices, with the exception of New York,

RSG:mjt - 11

Buffalo and Albany, for the period April 1, 1951 through June 30, 1951 were found to total 17,153. In the belief that the same ratio (47.475% and 52.525%) of membership would prevail on June 30, 1951 as formerly, it was computed that there were 15,503 members in District No. 2.

Since, as indicated hereinbefore, there were 640 members listed in the Buffalo and Albany Divisions, this figure, subtracted from the total of 15,503 New York State membership, gives a total of 14,863 members in the New York Division.

Confidential Informants T-6, T-16 and T-42, of known reliability, have advised that all districts of the Communist Party, including District No. 2, have lost heavily in membership in recent months and that the above figure of 15,503 appears to be a reasonably accurate estimate.

National Communist Party Membership

The best estimate of the National membership of the Communist Party was approximately 32, 650 as of June 30, 1951.

Verification of Membership

Confidential Informant T-14, of known reliability, reported that a Communist Party meeting was held in August, 1951 at the home of a Communist Party member in Brooklyn, New York, and that among those present was [redacted] a Kings County (Brooklyn) Communist Party official.

b6
b7c

[redacted] stated that in view of the hazardous position of the Communist Party, it was necessary to take precautions that the membership was trustworthy and loyal. Accordingly it was decided that a written verification be made of party leadership. This verification would be similar to the recent verification made orally. He also stated that this meeting was to be held in the strictest confidence, and was not to be mentioned to the rank and file party member.

A two page legal size questionnaire with some fifty or sixty questions mimeographed thereon was passed to the members present. The questionnaire was split into three parts: the first concerned party background, the second concerned military service, and the third related to personal life.

NY 100-4931

Under the first part questions were asked regarding the comrade's name, birth data, residence, nationality and economic background of parents, own economic background, employment, trade, wages, former employments, religion, education, mass organizations; when the comrade joined the Communist Party; who recruited the Comrade; places where the comrade worked five years prior to entrance into the Communist Party; economic or political struggles before entering the party; and economic and political struggles since entering the party; previous political affiliations; other comrades who knew the writer before joining the party; what comrades know the writer longest; close friends and acquaintances of the comrade both in the party and outside the party; Communist Party schools attended; Communist Party positions held; whether the comrade has ever been a full time functionary; has he ever disagreed with the Communist Party, and how; does he know anyone who is "sour" on the party; has he associated with anyone who was expelled from the party or who is an enemy of the party, or who has caused factional disputes; has he any relatives employed by the city, state or federal government; has he ever been investigated.

Under part two questions were asked regarding military service, the branch of the service, the rank held; whether the comrade was ever arrested, even for a traffic violation; whether he had ever been out of the United States,

Under the final section questions were asked regarding military status; whether living with spouse; any children of the marriage; state of health; any serious illnesses; any psychiatric treatment; names and occupations of all brothers and sisters; indulgence in gambling, drinking or playing cards.

After the form was completed and handed in to [] separate pieces of paper were distributed to each person present. Each of the following questions were answered on separate pieces of paper. The first question was whether the comrade was suspicious of anyone in the party or anyone close to the party. If there were any suspicions, the member was

b6
b7c

RSG:mjt - 10

NY 100-4931

asked to write down the name of the person suspected and the reasons for such suspicion.

The second question was whether the party comrade had ever been investigated.

The next question was whether the party comrade had ever taken a civil service examination or ever held a civil service position.

The last question was whether the comrade had ever used narcotics.

The National membership of the Communist Party, USA was estimated in the following manner:

As previously reported, Confidential Informant T-15, of known reliability, made available on March 30, 1951, a document containing figures which were apparently membership statistics for all Communist Party districts. It is believed that these figures were entirely accurate and appeared to have been compiled some time prior to March 30, 1951.

In this document the National membership totaled 37,761 with the membership of District No. 2 (New York State) listed as 17,926. Thus, 19,835 members or 52.525% of the total National membership were located in districts outside District No. 2, whereas District No. 2 membership of 17,926 was 47.475% of the total National membership.

Membership statistics contained in the quarterly reports of all offices, with the exception of New York, Buffalo and Albany, for the period April 1, 1951 through June 30, 1951, were found to total 17,153. In the belief that the same ratio (52.525% and 47.475%) of membership would prevail on June 30, 1951 as formerly, it was computed that there were 15,503 members in District No. 2. This figure added to 17,153 gives a total of 32,656 members nationally.

Confidential Informants T-7, T-21 and T-42, of known reliability, have advised that the Communist Party has lost heavily in its membership in recent months and that the above figure of 32,656 appears to be a reasonably accurate estimate.

COMMUNIST PARTY, USA
INTERNAL SECURITY - C

Re report of Special Agent Russell S. Garner, dated October 19, 1951.

It is noted that on page 27 of this report there is set out an estimate of the national membership of the Communist Party as of June 30, 1951. In the future it is requested that an estimate not be set out of the national membership of the Party inasmuch as this estimate, in most instances, will be at variance with the figures compiled by the Bureau after the receipt of information concerning membership from all field divisions. For example, the estimate set out in instant report was 32,650. The estimate of membership based on figures furnished by all field divisions was 35,310 for the same period. The deletion of this information from future national reports on the Party will eliminate the possibility of the Bureau furnishing conflicting figures to other agencies.

It is noted that a considerable amount of the data which was used in instant report was obtained from Party publications such as the "Daily Worker" and "Political Affairs." It is believed that a considerable part of this information could have been further condensed without materially affecting its value. In the future every attempt should be made to utilize information obtained from informants or by active investigation in preference to data obtained from Party publications.

The Bureau is aware of the magnitude of the task involved in preparing the national reports and it is not intended that this be taken as criticism of a well-prepared report. However, as indicated above, preference should be given to the use of original data obtained from informants and by active investigation. When it is necessary, in order to set out a complete picture of the Communist Party's activities, to utilize information from Party publications, where possible the information should be condensed.

MEMORANDUM

RE: CP STRATEGY IN INDUSTRY
INTERNAL SECURITY - C

On 11/20/51 [redacted] orally advised that in a conference with [redacted] Org. Sec. of the Ridgewood - Maspeth CP Section of the Queens County CP, [redacted] stated that white collar workers must be active in industrial concentration work. [redacted] cited as an example the good work the dentists did on the waterfront in the recent longshoremen strike in New York City. Informant advised [redacted] did not elaborate on the participation of the dentists in the strike. However, it was stated the white collar workers are educated and can best direct the activities of those workers in industry. [redacted] advised the Informant that all other Party work is secondary in comparison to industrial concentration. [redacted] advised these instructions were received from [redacted] Org. Sec. of Queens County CP. In addition the Informant advised [redacted] and the Informant are to reactivate [redacted] Inspector at the Sperry Gyroscope Plant, who has been inactive in the Party for about a year.

b6
b7C
b7D

Informant also advised the Party is mainly concerned with registration of its members at this time. It was stated the Party is contacting all its members and even those who have been inactive to register them. Informant added the following information is requested from those being registered:

Sex, National Origin, Length of time in Party, Age, Description, Local Union or Industry.

[redacted] advised the name of the member being registered will not appear but a number such as 1 etc will appear beside the individual's name on a sheet containing a control number. Apparently the identity of the member will be known only by the club Organizer who will turn the information over to the Membership Director.

COMMUNIST-PARTY, USA
INTERNAL SECURITY - C

ReBulet 11/26/51, requesting that in the future an estimate not be set out of the national membership of the COMMUNIST PARTY, USA in the quarterly reports submitted by the New York Office.

In the past this office has included in its quarterly reports the latest best estimates of membership figures in line with SAC letters #75, Series 45, dated 7/26/49, and #63, Series 50, dated 9/5/50, and with Bulet dated 2/5/51, captioned, "COMMUNIST PARTY, USA - MEMBERSHIP; INTERNAL SECURITY - C".

In accordance, however, with relet, no such estimate will appear in future national reports.

Since New York is the office of origin in this case, it is believed that it would be to its advantage if the Bureau would make available to this office each quarter the Bureau's compilation of membership figures for each district based on information received from all divisions. In this way, New York will always be cognizant of current membership figures in possession of the Bureau. Moreover, such information will assist New York in making its quarterly estimates of the New York State membership.

II. Communist Party Clubs operating in the New York Division:

- (A) 1945: Approximately 400
- (B) 1951: Indeterminable number

(Note: Since the adverse decision of the United States Supreme Court on June 4, 1951 upholding the convictions of the eleven Communist leaders under the Smith Act, and the

Letter to Director
NY 100-4931

subsequent arrest of seventeen additional Communist leaders in New York on June 20, 1951, the size of Communist Party clubs has been drastically reduced and Party clubs (actually groups) now generally consist of 3-8 members in the New York Division. The total number of such clubs (or groups) is impossible to estimate inasmuch as these groups meet in the homes of individual members and they occupy no physical headquarters).

III. (A) Types of Communist Party clubs operating in the New York Division in 1945:

1. Community club: Comprised of people in given community.
2. Industrial club: A club organized in a particular industrial area and in such basic industries as railroad, longshore, food, maritime, etc.
3. Youth club: Composed of young people.

(B) Types of Communist Party clubs (actually groups) operating in the New York Division in 1951:

1. Community club: Same composition as above.
2. Industrial club: Same composition as above.
3. Shop club: Consists of people organized in a particular shop.
4. Mass organization club: Composed of people from various types of mass organizations such as peace, tenant, PTA, American Labor Party, etc.
5. Negro concentration club: Comprised of negroes.

IV. Communist Party industrial clubs operating in the New York Division:

- (A) 1945: Roughly 150 in the New York Division and about 400 nationally.
- (B) 1951: Indeterminable for reasons set forth under II (B).

III. Value of property owned by Communist Party in New York Division:

In 1945 and 1951 the only property owned by the Communist Party, USA was and is owned by the 12th-13th Realty Corporation, which is actually a "dummy" corporation of the Communist Party, USA. This property consists of a nine-story building at 35 East 12th Street, New York City which, until recently, housed offices of the Communist Party, USA, New York State Communist Party, and New York County Communist Party. The building still houses the "Daily Worker" and "Morning Freiheit".

The above-described property was purchased for \$135,000 on July 31, 1942 and its assessed value as of May 31, 1951 was \$215,000 (including \$51,000 assessment on the land). The unpaid balance of the mortgage on this property as of November 30, 1951 is estimated at \$86,100.

The New York State Communist Party is not known to own any property, nor are any of the county organizations in the New York Division.

SECURITY MEASURES

I. Communist Party Security Measures In Effect In The New York Field Division:

(A) 1945: The conduct of the officials and members of the Communist Party in 1945 reflects that they were apparently indifferent to the security precautions exercised by the Communist Party at the present time.

MEMBERSHIP RECORDS

Records of the rank and file members were maintained in the various Communist Party County headquarters. These records reflected the occupation and union affiliation of the members. In addition, file cards were maintained by the clubs and revealed each club member's name, address, sex, color, occupation, union affiliation and Party number.

MEETINGS

Mass meetings attended by large segments of the membership were frequent. In February, 1945 the New York State Committee CPA scheduled a series of mass meetings for March and April for the purpose of mobilizing the membership for approaching elections.

For a dinner in honor of WILLIAM Z. FOSTER and ELLA REEVE BLOOR on March 11, 1945, each club was required to have its members attend and all members of the National Committee CPA were to be present.

On June 4, 1945 Manhattan Center, New York City, was filled beyond capacity with Party members attending a mass rally to hear EARL BROWDER speak on the San Francisco Conference. Approximately 15 newspaper reporters were seated at the press table at this rally.

Letter to Director
NY 100-4931

Membership meetings were also attended by many comrades. A membership meeting of the Queens County Communist Party held November 20, 1945 was attended by approximately 450 members. Membership meeting in Bronx, New York, on November 27, 1945 was attended by over 1,500 Communists. At this meeting between 8:00 and 9:00 P. M. club secretaries and organizers registered and issued new membership books to 470 Party members.

On December 11, 1945 a county-wide membership meeting called by the New York County Committee Communist Party was attended by approximately 1,500 members.

Open air street meetings were routine. Some were small neighborhood gatherings; others were attended in great numbers. On November 9, 1945 a rally under the auspices of the Communist Party USA was held at Union Square, New York City, at which approximately 3,000 persons were present. At this rally, Communist Party leaders on all levels were speakers. The New York State Committee Communist Party issued a directive to all clubs urging that the entire membership be mobilized to participate in a demonstration at Times Square, New York City, on December 8, 1945.

Many of the meetings of the type described above were publicized in the "Daily Worker".

RECRUITING AND REGISTRATION

Emphasis was placed on recruiting. Prospective recruits were invited to attend membership meetings. The Party's clubs were required to meet a predetermined quota of new members by a specified deadline.

In March, 1945 the New York County CPA Headquarters directed that recruits must be obtained in the

Letter to Director
NY 100-4931

trade unions and that the CPA members must act openly as Communists within the trade union.

On May 8, 1945 a special meeting of the New York State Committee CPA at Manhattan Center, New York City, was attended by about 800 Party members. At this meeting, ushers distributed pledge cards and the audience was requested to submit names and addresses of prospective CPA recruits.

On November 20, 1945 the Party launched a membership drive to recruit not less than 20,000 new members. In addition, at this time it was the Party's immediate objective to activate and enroll all delinquent members for 1946.

In addition, as may be noted above, at a meeting on November 27, 1945 470 Party members were registered and issued new membership books in one hour.

THE "DAILY WORKER"

Articles identified the Party functionaries and carried their photographs. Group photographs identifying comrades who had engaged in some special Party activity were frequent. Party clubs were also identified both as to names and addresses and total membership. Individual members were outstanding in obtaining recruits or "Daily Worker" subscriptions were names and described as members of Particular Party branches. Mass meetings, membership meetings and street meetings were publicized in the Communist press.

USE OF TELEPHONES

The membership generally in telephone conversations revealed names, addresses and phone numbers of Party members; places and times of meetings, including identities of members scheduled to attend; names and addresses of

Letter to Director
NY 100-4931

Party clubs identifying officers thereof; programs of action to be taken by various Party commissions and committees; club membership figures; identities of Party employees; disciplinary matters; financial matters; and the Party's connections with various union officials.

(B) 1951: At the present time officials and members of the Communist Party observe and practice every possible and conceivable precaution and measure to insure security for the Party and its members.

REGISTRATION AND VERIFICATION OF MEMBERSHIP

Today the Communist Party is extremely concerned as to the loyalty to the CP of both its rank and file members and its leaders. All members have been warned to be alert for FBI informers. The CP has established its own loyalty boards to check on the membership at all levels. Insistence on Party loyalty at all times is part of a program to weed out undesirables and to establish a closely knit organization of well disciplined and dependable comrades.

The Communist Party issued a statement on June 21, 1951 setting June 4, 1951 as the date when CP members ceased to be members unless approved by appropriate CP committees on or before August 8, 1951.

Letter to Director
NY 100-4931

This has been interpreted to mean that the Communist Party was endeavoring to tighten the Party's organizational apparatus by invoking stricter membership requirements; to purge itself of disloyal, doubtful, undesirable and weakhearted members; and to provide an alibi for CP members to plead that they are not members since they had not not been approved by appropriate committees by August 8, 1951.

In August, 1951 there was a written verification of the Party leadership which was concealed from the rank and file comrades. Copies were distributed to Party leaders in which questions were asked concerning their background, relatives associates, military service, arrests, health, personal habits, CP schools attended, foreign travel, CP positions held, suspicions of other comrades, any contacts with expelled members, etc.

RECORDS

At the present time it would appear that the maintenance of membership records has been practically discontinued. Lists which have been obtained through informants and other sources lack detail and reflect only first names or nicknames. No addresses or other identifying data appear. It is evident that every effort is being made to conceal the Party membership. The exposing of a comrade, although innocently done, is regarded by the Party as a serious matter requiring disciplinary action. Group captains have been instructed to memorize the names and addresses of the comrades in their groups.

There are indications that at the various CP headquarters trash is being burned; that portions of letters, reports, etc., referring to members' names, addresses, telephone numbers and other identifying data, are being torn off and burned or otherwise destroyed and that first names are being used almost exclusively.

Letter to Director
NY 100-4931

In the Fall of 1951 during the CP Fund Drive, it was decided that only club organizers would keep a record of the members and of the amounts donated and that these records must be destroyed as soon as the fund drive ended. At this time, it was also decided that all individual Party members should destroy any files containing names or telephone numbers of CP members or of those formerly in the Party. Members were instructed that instead of carrying a list of telephone numbers of Party members these numbers should be looked up in the telephone book.

GROUP SYSTEM

At present, a group system now in operation has reduced former large Communist Party clubs to cells composed of three to eight members. A group captain acts as liaison between his group and the next higher level of the Party.

The group captain must be of such caliber that the group will function properly even though for months at a time the group captain may never be contacted by a higher level functionary. The group captain maintains no membership list or such.

CP MEETINGS

The CP issued instructions restricting the selection of meeting places and governing the conduct of the members at CP meetings. Members were warned to watch for surveillances and not to attend any meetings if there was any question of their being followed. Meeting places used in the past on a regular basis and homes of persons in positions of leadership were to be avoided as meeting places. Members were directed that no CP literature should be taken to CP meetings. Functionaries were advised not to attend meetings near the Party headquarters. CP seamen were instructed to remain away from both the Party's offices and meetings.

Letter to Director
NY 100-4931

MAY DAY, 1951

In April, 1951 the CP decided to have its members march in the May Day Parade with the trade unions and mass organizations. The New York State Committee CP decided to have only about 300 comrades march in the May Day Parade since the Party did not want to expose the membership to the FBI cameras. The 300 to march in the Parade were selected because they were known to the FBI.

"DAILY WORKER"

It has been noted that the Communist Party no longer lists in the "Daily Worker" the names of officers in the CP sections and clubs nor are the CP sections and branches identified in the "Daily Worker".

CP COMMUNICATIONS

Instructions were issued that confidential CP material at the CP Headquarters should not be mailed but should be placed in a sealed envelope until someone called for it. This plan was applicable even to CP material being transmitted outside the New York City area.

In this connection, instructions were issued to certain comrades that letters were no longer to be used as a means of communication. These comrades were instructed to cease using the mails, telephone and telegrams in communicating with one another and that slower but more secure means of communication were advocated. All Party members at the present time are very cautious in conversations over the telephone. They use "double talk" and avoid mentioning names and addresses in their conversations. Some sections have requested their members to use fictitious names when using the telephone and not to reveal any information concerning the Party.

Letter to Director
NY 100-4931

Functionaries at the various headquarters frequently leave their offices and make phone calls from public telephones.

In the early part of 1951 it was reported that the Party was establishing new systems of couriers and new stations for interchange and dissemination of material.

On September 24, 1951 the Party had its telephones at National Headquarters, 29 West 125th Street, New York City, examined by a qualified technician to determine whether these telephones were tapped.

CP HEADQUARTERS

Information received reflects that no known Party persons are permitted in the CP Headquarters, such as cleaners, painters, etc.; that the locks on the headquarters doors have been changed; and that designated members are responsible for disposing of the trash.

CP UNDERGROUND

It is believed that the establishment and operation of the CP underground apparatus should be included in a consideration of the Party's security measures in effect in 1951. Many of the Party's most competent leaders are in hiding. The rank and file have been instructed to conceal their CP affiliation and to infiltrate mass organizations. These underground members, in following Party discipline, have, in many instances separated from their wives and children and relinquished their regular employment.

Members selected for underground activity are highly trusted by the Party and persons considered to possess political and organizational leadership qualities.

Letter to Director
NY 100-4931

It has been the plan of the Party that the member selected for underground work should completely change his mannerisms and mode of living. National CP Headquarters directed some of the underground members to alter their personal appearances completely; to take on new identities, assume aliases and obtain new employment. Until their identities are completely changed and their new identities established, these members are to move frequently from hide-out to hide-out.

No Party member was to be utilized in the CP underground without a complete security check for background information. Relatives and friends are factors to be considered in the security check as well as the personal habits of the comrade. Members accepted into the underground apparatus are thereafter subject to periodical checks to determine their value to the movement and their ability to function under strain. Comrades in the underground are to have no direct association with the regular structure of the Party and are subject to the strictest discipline.

SELECTION OF HEADQUARTERS

For a hide-out to be acceptable to the CP the following requirements are necessary:

1. Unquestionable devotion of Party loyalty on the part of the person selected to hide away someone.
2. The person selected is not to be too well known as a CP member or too well known as a Party sympathizer. This person is one whose activity was limited to donations and contributions to the Party funds, etc.

Letter to Director
NY 100-4931

3. Select an apartment house where there is no doorman or elevator man, preferably a walk-up apartment house of three or four stories.

4. Select a family where both husband's and wife's loyalty and trustworthiness are known to the Party and where there are no children or maid, etc.

5. Select an apartment where there are no articulate neighbors.

6. Select a loyal couple who can accommodate a guest, such as an apartment that may have an extra bedroom or sleeping quarters, etc.

7. Select an apartment where a pay telephone station would be nearby.

8. Select a neighborhood that is familiar or well known to the person residing in the neighborhood so that he can determine from inquiries from friendly neighbors if any inquiries were made, etc.

INFILTRATION OF MASS ORGANIZATIONS

The Communist Party has insisted that every Party member join some mass organization and participate daily in the life of the mass organization, thus gaining the confidence and respect of its members. By so working, it is expected that the Party member will become a leader in the mass organization and be in a position to carry on the work connected with the CP program. It has been pointed out to the members that they cannot openly be known as Communists in mass organizations, particularly with reference to infiltration of the trade union movement the Communist Party's concentration program has stressed

Letter to Director
NY 100-4931

the necessity for activity designed to gain the confidence of working-class people while not disclosing the CP connections of the members so engaged.

Party members have been told that it was deemed advisable for them to go to work in war plants where they were to "keep their mouths shut on Communism, but speak up on the peace issue". On this matter there can be no club discussion because of a fear of spies in the Communist Party.

SECONDARY LEADERSHIP

In the early part of 1951, information was received that the Communist Party had formed a substitute leadership at all levels in the event that the present leadership was removed as a result of Government arrest. A leading person in each section and in each division was instructed to leave town from Saturday morning until Monday night in each week-end. This action was based on the supposition that any arrest would be made on a week-end.

TACTICS TO AVOID SURVEILLANCES

Information concerning the above-caption is embodied under Item H of SAC Letter Number 91, Series 1951, dated September 8, 1951. This information reflects that the Party members have dyed their hair and in other ways to have changed their physical appearance; to drive in the wrong direction on a one way street; to double back after rounding a corner; to look around constantly while walking; to leave personal articles in sight of agents and then abandon same in trains, hotels and other locations; to leave taxicabs and instruct the cab driver to drive around the block and pick them up again; to use building or

Letter to Director
NY 100-4931

department store elevators for the purpose of attempting to identify agents by getting on and off the elevators at various floors and scrutinizing persons in the immediate vicinity; to abandon their automobiles in the street; to use rural and wooded areas; to conceal themselves on the floor of a car driven by a second individual, etc.

MISCELLANEOUS

In August, 1951 instructions were issued advising the Communist Party members that in the event the FBI should call at their homes they were not compelled to make any statements nor to permit a search of their premises unless the agents exhibited a search warrant. They were warned not to try to "outsmart" agents by giving evasive or false answers. They were advised not to fraternize with the agents nor accept cigarettes, drinks, etc. They were told that the agents are thoroughly corrupted agents of the class enemy who would stoop to any treacherous and degenerate acts to gain their ends.

The Communist Party has particularly emphasized the necessity of uncovering "stool pigeons" in the Party. It has stressed the principle that the struggle against "enemy infiltration" cannot be viewed as a temporary phenomena. The Party feels that only in this way can it prevent would be "stool pigeons" from entering the ranks and, where they have succeeded in joining the Party, to bring about their earliest detection and elimination.

CP members have been warned to watch out for the activities of expelled members and to isolate them from workers and progressives.

Letter to Director
NY 100-4931

A Party member in a supervisory position or in charge of membership lists may not consult a psychologist or psychiatrist. An ordinary CP member who wanted psychiatric treatment would be suspended and cut off from all CP contact until the treatment was completed. A member would be expelled from the Party if he went to a psychiatrist not first approved by the Party. The Party does not work favorably upon members taking courses in subjects relating to psychology until the Party has authorized the members to take such courses. Comrades have been requested not to visit or contact Party members who are being checked by the FBI because of past friendship with the missing CP leaders. Relatives of the CP fugitives are not being visited by their Party comrades because these comrades believe that they would then be watched by the Government.

For the most part, checks drawn against the Communist Party bank accounts are drawn to Cash, including checks and wages.

The practice of Communist Party members assuming a Party name is a continuing one. Communist Party functionaries also rent hotel space for meetings using fictitious names or using a name indicative of a social club. Train and plane reservations are also made under fictitious names. Communist Party members have used fictitious names in both obtaining employment and apartments.

Remylets dated January 4, 1951 and October 6, 1951.

The first referenced letter sets forth counties in the Buffalo Division which comprise the sub-district of the Communist Party for Western New York and also those counties of the sub-district which are in the territory of the Albany Division.

On December 10, 1951, BU-140-S informed SE [redacted] of the Buffalo Office that [redacted] CP member, was discussing new registration plans of CP members in the Buffalo area. According to the informant, [redacted] said they had merely taken a count of the members last year and it was realized that many did not desire to be in the Party. KAPLAN stated the Party believed that now many would definitely be registered.

From an analysis of available CP membership data, it is roughly estimated that there are about 285 Party members in this division. This figure was arrived at in the following manner.

b6
b7C
b7D

On January 9, 1952, [redacted] advised SA [redacted] that to date about 65 persons had registered in the CP. The informant said that the Communist Party had a list of 250 names to contact in Buffalo, N.Y. which probably included Lackawanna, N.Y. and they hoped to register approximately 200 of them. From this it appears that they hoped to register approximately 4/5ths of the number on the list.

The first referenced letter discloses that on March 6, 1950, BU-50-S advised SE [redacted] he had received information that same date from [redacted] Secretary-Treasurer of the Monroe County CP, that there were 81 members registered in Rochester as of that time. By applying the same fraction to this figure we arrive at the estimate of 64 members.

On August 24, 1951, [redacted] advised SA GEORGE A. LANKES that there were 10 members in the Communist Party of Jamestown, N.Y.

b7D

On January 4, 1952, [redacted] advised SA LOREN E. BIDWELL that there were 11 members in the Communist Party in the Elmira, N.Y. area.

[redacted] stopped paying C.P. dues in Dec. 1950 and refused to register as a C.P. member. He told me that he did not object to [redacted] belonging to the C.P.

I arrived home at 10:05 PM; at 10:10 PM I received phone call from [redacted] asking that I come to the home of [redacted] tonight and turn in record of all C.P. members I had registered along with their dues. I arrived at [redacted] home [redacted] at 10:30 PM where I found [redacted] the section C.P. organizer and [redacted] C.P. section organization secretary waiting to receive report on the registration. Both were glad to hear that all my club members had been registered. The three of us then went to apt. on third fl. same address which is occupied by [redacted] the section financial director to whom I turned over C.P. dues money along with a form which [redacted] had instructed me to make out as follows:

	2.00	1.00	.35	
Sept.	111	11	111	each straight mark means a C.P. club member under amount of dues they pay. No names are turned in to [redacted]

	Total		39.35	

[redacted] kept \$28.96 and returned to me for club treasury \$10.39. She gave me a receipt for 28.96 which I am enclosing.

[redacted] stated that they both had to report to the County C.P. station tonight where the registration records along with the dues money are to be turned in.

The C.P. County station location so far has not got down to the club organization level.

As I was leaving [redacted] informed me that [redacted] is very ill and is in the Queens General hospital and it is doubtful if she will be active in a C.P. club for several months.

Membership of District No. 2

Estimated membership of the Communist Party in District No. 2, which comprises New York State, is 14,529.

Estimated membership in the New York Division is 14,000.

Registration of Membership

Confidential Informant T-6, of known reliability, reported that in late November, 1951, the Communist Party in the New York City area was engaged in the registration of its members, including inactive ones, with the goal of completing such registration by the end of 1951.

Informant said that in registering, the member was given a number on a sheet containing a control number, said sheet having sufficient space for about ten names. On the registration sheet, informant said, such information was to be shown as the registrant's age, sex, race, length of time in Party, and trade union or other mass organization affiliation. According to informant, the name of the registrant was to be known only to the club organizer.

Other questions asked each member on registering, Confidential Informant T-7, of known reliability, reported, were the following: Have you or has anyone in your family ever worked for the FBI, police or any government investigating agency? Do you ever go to a psychiatrist? The informant said that the latter question was apparently based on the belief of the Party that the FBI is closely working with many psychiatrists and thus obtaining information concerning Party business and members through these individuals.

NY 100-26603

According to Confidential Informant T-6, any member who would not reregister or who made any trouble during registration was to be reported to his county membership director, who in turn was to take up the incident with the state organization.

According to this informant, the New York State Communist Party was preparing to launch a recruiting drive during 1952 in which it would attempt to seek new members from the ranks of the American Labor Party.

ADMINISTRATIVE

COMMUNIST PARTY, USA
District No. 2
New York Division
INTERNAL SECURITY - C
New York file 100-26603
Period: October 1 - December 31, 1951

MEMBERSHIP

(Bureau file 100-3468)
(New York file 100-80638)

Membership of District No. 2 was estimated in the following manner:

Estimated membership in the Albany Division is 244, while in the Buffalo Division, it is estimated there are 285 members in the Communist Party.

The Bureau has advised that as of September 30, 1951, the estimated membership of the Communist Party in the United States, exclusive of District No. 2, was 16,150.

In a document containing membership figures which were apparently membership statistics for all Communist Party districts in the United States, made available by Confidential Informant T-8, of known reliability, on March 30, 1951, it was found that the membership of District No. 2 was 47.475 per cent of the total national membership, whereas membership of the districts outside District No. 2 was 52.525 per cent of the total national membership.

In the belief that this same ratio of membership prevails currently as formerly, it was computed that there are 14,529 members in District No. 2.

Since, as indicated hereinbefore, there are 529 members in the Albany and Buffalo Divisions, this figure, subtracted from the total of 14,529 New York State membership, gives a total of 14,000 members in the New York Division.

Date of report Nov. 18, 1951

T.C.P.

At a Section Staff meeting, of the Tremont North C.P., held on Wednesday night Nov. 14, at [REDACTED] house we discussed the following program, registration, group meetings to discuss the 1952 registration dues to be collected through Dec. 1951, letters and telegrams to our representatives in Albany and Washington, to protest the action taken against Negroes in the South especially the Ingram Case.

b6
b7c

Along these lines of protest, we must also visit our neighboring theatres and question them about the film Oliver Twist, and if they intend showing it, to file a personal protest with their downtown office against showing it on the grounds that it is offensive.

Also discussed was the forth coming sub drive, and recruiting drive, and these two drives must be a success.

A meeting of group captains for this Friday, night Nov. 16, was agreed upon in order to brief them on registration. We were to contact them all to insure a good meeting.

Registration was to commence in a week or two and must be completed as soon as possible because of the sub and recruiting drive, therefore it is necessary to have this group captains meeting this Friday and soon after to visit our people to register.

Registration is to follow in the following manner, each captain will receive a special form as follows, with ten numbers denoting ten people, the numbers to start at the bottom of this form, and the number 10 at the top, the reason for this is, when we register a person or two we write the information required opposite the number 1, and then in order not to carry this information around with us we tear it off and turn it in, thus leaving a blank form in our possession at all times. This is to continue until we file all ten names.

The other information required is, opposite the number the Sex, National origin, years in the Party, age, color, kind of work, and if in a union or not, and which one.

It is necessary to have dues paid up through Dec. to register a person, if we do not know how much dues a person owes then we must go back to June 1951, and in this regard we must collect the proper amount of dues from our people, there is a different category 10¢ for unemployed, 35¢ for housewives, \$1.00 for those earning \$30.00 to \$60.00 and \$2.00 for those earning \$60.00 to \$100.00 and five dollars for those earning more. This is very important because in this manner our Party can tell the status of our people and only in this way can our leadership know what the standing of our membership is.

This information and discussion was led by [redacted] [redacted] and she was very firm in stressing about dues, because it is a Party obligation, at present when records are not kept, to pay our dues every month is a serious duty for us.

b6
b7c

Besides [redacted] the others at this meeting were

[redacted] and another elderly woman by the name of [redacted]

After registration was discussed thoroughly [redacted] spoke on the sub and recruiting drive, we were surprised to know that the Party was recruiting people into the party, previous to this we were very careful who was recruited and accepted even now we feel the same way, but there are people who are interested enough in our movement to join and fight with us, these we must accept into our ranks.

In connection with registration, there are two most important questions which we must ask of each member, 1, if he or she is at present receiving treatment from a pshyciatrist, not if they were receiving it years ago or will receive it in the future, but now at present, and so we cannot accept them into the Party, because it is removed that the F.B.I. has contacted all Pshyciatrist to

inform them to be on the alert for there people.
2. If he or she is in any way connected with the Police or F.B.I. these naturally cannot be recruited into the Party.

Also in connection with this [redacted] met [redacted] and they discussed the expulsion of [redacted] from the Party because he was now receiving such treatment, and [redacted] wanted to know if he was expelled after a discussion in the Section. This was the case and [redacted] said that he knew it as such.

At this point [redacted] gave a report on the recent A.L.P. vote in this area, saying it was one of the largest voting periods in years, and this gives us an idea about the caliber of the people in this community, this shows that there are many progressive people in this area and for the future it is food for thought to know that in the next election year, the '52 Presidential year we have an important mission to perform for the A.L.P.

The meeting for Friday night was to be held at [redacted] she is a member of our Section, her husband is in [redacted] group, they are very inactive and very seldom attend meetings.

[redacted] told us about a plan which the A.L.P. had in mind, a little boy was killed at 174 St, and Boston Road, and So, Blvd. a three way crossing, to combat this dangerous hazard they are planning a mass demonstration to stop all traffic, on Saturday afternoon to enforce their demands to make this intersection safe for pedestrians, 1, to place the traffic light where it can be better seen and to close 174 St, to all traffic coming north from So. Blvd, and Boston Rd, and 2, to have a policeman stationed here especially during school hours. [redacted] asked those present to contact their different organizations, the woman for peace, the P.T.A. and to ask all mothers to come out on Saturday and attend the demonstration.

The next night Thursday Nov. 15, I called [redacted] and asked him to attend this important meeting of group captains which was going to be held on Friday

night, he must attend, and when he said he would I then told him that I would deliver the address to him tomorrow night, because I could not tell him the address over the phone.

I called [redacted] and asked her if she could attend the meeting, but she said that it was impossible to do so, she saw [redacted] today and explained to her why she could not attend.

The following night I visited [redacted] to give him the address of the meeting place, but before I could he told me that he received a call from [redacted] calling off the meeting, she did elaborate too much about it, but something must have developed for her to call it off.

I told [redacted] that after the meeting Wednesday night I walked [redacted] home and she asked me if I could continue going to our concentration area, to distribute the Worker and later if we could to start a delivery route with daily.

I asked [redacted] if we can work together on this, if so, we would start a week from this Sunday together, he agreed to work with me.

[redacted] was over on 11/29/51 and told me that it had just come to her attention about the television and [redacted] and what were my plans. I told her that I intended to borrow the money from my father and that the amount would be paid the first week in December. That I had not realized that I had displayed an act of white chauvinism and was deeply sorry about the situation that when the bill was paid I expected to self-criticized at a public meeting. [redacted] said well as long as I understood the issue and my plans were accepted, no further comment. I was also told that [redacted] was now acting branch organizer. [redacted] has never been active before since at [redacted]

I was also told that Queensbridge had a 100% membership reregistration; outside of [redacted] who had until recently lived in my building. I had reregistered [redacted] and would I run upstairs and see if she was home. I did so and found from the tenants in that apartment [redacted] had moved to [redacted] in the Ravenswood project. I was asked to go there reregister her and arraign for her transfer with a dollar bill taking the numbers off the dollar and she holding the dollar bill until contacted. I have not as yet done so but will do so on Sat. 12/1/51.

I was told I would be notified of all meetings by [redacted]

On Sunday morning Dec. 2, I visited the following to register them in the Party for 1952. [redacted]
Sex - male, age - [redacted] National origin - Jewish, length in Party - 15 yrs., occupation - [redacted], Local union - [redacted] Industry - [redacted]
[redacted] Paid dues of \$5.00 through Dec. 1951.

I had a hard time convincing him who I was. he was very cautious but it so happened that I collected ten dollars for the fund drive last year and his wife knew me, his daughter knew me also, so when he was convinced he gave me the above information.

[redacted] and I went into the following houses with the Worker, I bought five copies at a newsstand 1531, 1535 1501 So. Blvd. We sold four in [redacted] and [redacted] have subs. In [redacted] was not at home, she usually buys a paper. In [redacted] we left a paper also.

After our canvassing we visited [redacted] [redacted] to reregister them, we were lucky that they were at home, when I spoke to them about registering [redacted] balked because of the dues, which had accumulated over the months, between him and his wife they owed sixteen dollars. I spoke to him and tried to show him that the most important task of a Party member was to register and to pay his dues faithfully. There are other obligations which we must abide by such as attend meetings, be active during a sub drive, fund drive, contribute to these drives, and other functions which we can perform but the Party insists that each person pay his or her dues regularly each month.

[redacted] reluctantly registered and asked that [redacted] postpone her registration for awhile until he pays all his dues. In this respect he asked me to come on Dec. 18, for some money.

Here is [redacted] registration information.
Sex - male; National origin - Negro, length in Party - 3 yrs., Age [redacted] occupation - [redacted]
[redacted] Bx. Local union - none.

I succeeded in getting [redacted] information as follows: Sex - Female, Age - [redacted] National origin - Negro, length in Party - 3 yrs., occupation, [redacted] [redacted] union - none.

[redacted] and I stayed awhile and spoke about the problems facing the Party today, the sub drive, the registration, the regular weekly canvassing in this concentration area, the poor attendance at meetings, etc.

We asked them if they could do any thing which would help us in the coming period but [redacted] said that [redacted] was not feeling well and might have to undergo an operation in the near future and until then they would not become too involved.

I told him that I would call him on the phone the next time I came to visit him.

Later in the day I called [redacted] and related to her just what had taken place with all these people, she was very much surprised that [redacted] did not register, but in the near future she would call on them and see what she could do about it.

I asked her if she wanted me to bring her the information I had about these people, but she said it would be better if I brought it direct to [redacted] at her house, but to make sure that I went early because she goes to school on Monday nights.

I told her I would call before going up.

[redacted] asked me to keep this Tuesday night open and also to make sure I read today's or tomorrow's paper, for information concerning a meeting of 49th St.

I told [redacted] that I had a union meeting for this Tuesday night Dec. 4th, but if I could attend this other meeting at the same time I would do my best. In any event I would get in touch with her before then.

I have been calling [redacted] for the past few Sundays, in order to go out canvassing in our concentration area but he was occupied with other matters, this was the first Sunday in three weeks that we went out together, he agrees that we must come out faithfully every Sunday because there are great prospects in this area.

DEC. 6 1951
SUBJECT COMMUNISM

This evening [redacted] and I drove to the home of [redacted] at his new address, [redacted] Maspeth. The purpose of our visit was to register [redacted] and [redacted]

We remained at the [redacted] home 45 minutes, during which time [redacted] was not persuaded to register; his reason was that the condition of the CP in the USA during the present period is that a person now cannot be sure who to trust, also that he has already put in many years of active work for the party and now younger people should take over. Adding that he will still remain loyal and full-fill his financial obligations, but will now be a dues paying member. Adding that later he may change his mind.

[redacted] was told by [redacted] not to register saying that even if they both did register, they still couldn't do any more for the party than they are now doing.

[redacted] gave [redacted] \$5.00, saying that this is a donation and not back dues, at the same time she winked at [redacted] said that she understood.

After leaving the [redacted] home, [redacted] stated that she had no doubt but [redacted] gave the \$5.00 for back dues and wanted to be registered, but did not want to say so in front of her husband, also that we already have all information needed; we should register [redacted] as there is no signature involved. [redacted] was registered.

We next drove to [redacted] where we attempted to see [redacted] told us that [redacted] got married three months ago and is now living in Brooklyn. The sister also told us to forget [redacted] because if her husband ever found out that [redacted] was ever a member of the CP it would break up her home. The sister refused to give us [redacted] address.

We next drove to [redacted] where [redacted] accepted dues and assignments. As [redacted] had a cold, we only remained about 15 minutes. There was no discussion. [redacted] stated that [redacted] has taken over all responsibility for the CP registration and that we could report to him on results of our work tonight.

DATE OF REPORT, 12/1/51.

On Monday night, Nov. 26, I received a phone call from [] asking me to come up to her house because she had something important to tell me. I told her I would be up later.

Later that night I went up to see her and she told me that at the present time the Party was in the midst of a registration drive, and it was important that we as leaders go out and register everyone.

[] asked if I would help out and visit a few people, she gave me the following people to see, [] I was to collect dues from last April if they do not remember when they paid last, and it was to go through Dec.

[] asked me to call [] right away and ask him to visit his people before Wednesday, because by then we are to have 75% of our registration complete. I am to tell him that on Wednesday night at [] house there is going to be a special meeting to discuss registration entirely, and he must come without fail.

I called [] he answered the phone and I explained the situation to him. He understood the conversation and promised to be at the meeting on Wednesday night.

I was given a complete form of questions by [] which I was to ask those people who registered, because I did not receive a regular registration blank.

I did not get a chance to go out and see these people until Friday night Nov. 30. I then visited [] and I registered him as follows: Sex: Male; Age: [] National Origin: Jewish; Length in Party: 20 yrs; Occupation: []; Local Union: [] Industry: []

On this registration blank there is no name, number or any other form of identification. Concerning his dues, he did not remember when he paid last so we concluded that he would see [] at the A.L.P. and give him whatever he owes.

100-68378

I then visited [redacted] he was out but his daughter was in and I told her I would be back on Sunday morning. She asked me to call before coming so I would surely get him in.

I called [redacted] right after visiting [redacted] and told her what happened. She then asked me if I would visit a few more people. [redacted] I knew where they lived, it was in the same neighborhood, so I told her I would visit them and then let her know by phone how I made out.

[redacted]
They were not at home.

[redacted] She was at home and talked with her for three quarters of an hour, but failed to register her, because she cannot fulfill her obligations to the Party according to her desires.

She is a [redacted] and receives very low wages, (about \$35. per week), Her husband does not contribute to her support or to the support of the house. He gambles all his money away, therefore it is a burden on her shoulders. She is besieged by many worth while Charities, Polio, T.B. etc. The many subscriptions to the Worker, Daily and Sunday, The Guardian, the A.L.P., etc.

It is mainly for this reason that she does not want to register. She understands the need for a strong Party, and she agreed with everything I said concerning the brutality against the Negro people, the jailings of leaders such as [redacted] of the C.R.C. and for the fight against high rents and the high cost of living, etc. But even with all these she still does not see her way clear to re-register. I told her I would report back to [redacted] [redacted] who would surely pay her a visit.

When I got downstairs I called [redacted] on the phone and told her just what happened. She told me that she would go and visit [redacted] some night, because [redacted] would try and convince her on many things and probably make some arrangements to collect her dues.

I also told [redacted] that I was going out with [redacted] on Sunday morning. I would also see [redacted] and I would then call her back and let her know how I make out.

This evening [redacted] and I visited [redacted] at his place of business, which is [redacted] [redacted] uses the name of [redacted] in the C.P. he recently purchased the home where he lives, [redacted], Ridgewood.

Purpose of visit was to persuade [redacted] to register his wife [redacted] for the C.P. [redacted] has not paid C.P. dues since Dec., 1950.

[redacted] stated that he would not have anything to do with getting his wife back into the C.P. because she is not able to attend meetings or do any C.P. work at all, also that if we wanted his wife back in the C.P. someone else would have to talk to her.

It was decided to have [redacted] visit [redacted] after New Year's.

[redacted] stated that he would prepare the spaghetti and meat balls for the dinner which the Maspeth C.P. section is holding at the [redacted] on Sat. evening Jan. 12th, 52.

After leaving [redacted] at 8:20 P.M. [redacted] and I sat in his car and discussed several C.P. members who have recently moved out of the Maspeth section.

[redacted] who has moved to Manhattan is to be registered by [redacted] who is a buyer for a store in Manhattan, was C.P. organizer in the Maspeth section, her husband [redacted] who is a public school teacher is also a C.P. member assigned to activity in teacher's union.

[redacted]
[redacted] who formerly lived at [redacted] and where C.P. classes were held each Wednesday from April 4th to Wed. June 20th, 1951. [redacted] the instructor,

has moved. [redacted] in discussing [redacted] referred to her as [redacted] her husband is [redacted] and their new phone No. is [redacted] stated that [redacted] would have to be registered by [redacted]

[redacted] also stated that [redacted] our C.P. section organizer has fallen down on the job and that he [redacted] has to do [redacted] and his own C.P. work and that its to be too much for him. [redacted] who has also moved from Astoria to Bayside gave me his new home phone No. which is [redacted]
